

Palestine and the Black live Movement

All Lives Matter but...

Palestinian lives matter too

From the river to the sea Palestine will be free

Black lives matter too

"I can't breath"

said Eric Garner

"Hands up don't shoot"

said Micheal Brown

1964

The Civil right Act was passed

prohibiting discrimination of

race

color

religion

gender

national origin

But I do have to ask

then why do we have discrimination

The Palestinian fight for freedom isn't different than

The black Lives Movement for Racial Equality

All we ever ask for is to be seen as human

to be seen as

mother,

father,

brother,

sister,

To be seen as how the world views white people to be supreme

Laws after law after laws

Acts after Acts after Acts

has been passed to prevent

unnecessary discrimination

unnecessary killing

so tell me why the people do not want to open their eyes and see

17,000+ black lives have been lost

80,000 Palestinians have died

How can you stay blind to this

These are not just numbers

For every life lost, there is a story

behind it

July 2, 2014

Shuafat, East Jerusalem

Mohammed Abu Khdeir

16 years old

was kidnapped by Israeli citizens

forced into a car

A few hours later

he was found dead

in Jerusalem forest

They took his life and for what reason?

July 17, 2014

Staten Island, New York

Eric Garner

43 years old

killed in a neck hold

he said

"I Can't Breathe"

11 times

11 times before he died

but what do you expect

when one thinks of himself as superior

July 31, 2015

Ali Dawabsheh

18 months old

first to die

in the attack against his family

Burnt alive

He will ask his murderer

for what crime was I killed

on the Day Of Recompense

April 4, 2015

North Charleston, South Carolina

Walter Scott

50 years old

pulled over because his breaks weren't working

soon his life was taken away

shot 8 times

2024

Occupied Palestine

30,000 + killed

of them

Children,

Women,

Man

I ask those in control

What have you done to prevent this?

What have you done to stop the killing of innocent lives?

What have you done with all your power to stop this?

People can watch us and question hope?

Saying things like

nothing will stop this genocide

or Palestine will not be free

But

I will tell them no

I'll tell them to every start there is an end

and the end to this genocide will be a free and liberated Palestine

the end will be a Palestine where the children will be at peace

where a mother and a father can feed their kids

where no drones will fly above the heads

where no guns, gunshots, or gunmen will be in eye view

and when we will have a fulfilled

"From the River to the sea Palestine will be free"

But now all that my heart hears are the missile's menacing murmurs leaving murmurs in my ears,  
heart, and mind

We're all fighting one fight

the fight to earn our rights

the right to be seen as equal in the eyes of man

Both Black and white

The only thing separating Black and white is only a few shades of clay

my heart rests knowing people are learning about the truth

we open the media and we see people from all over allying with Palestine

From London, Madrid, Istanbul, South Africa to Brazil

but the biggest allie my heart will always feel at peace with is-

Allah

because no matter where or what

انّا لله معنا

Allah is with us
